

Erratum

In the above original article, one reference is missing in the reference list. This reference should be also cited within the text. The following missing reference:

TUTUNCU N., TEMEL B., 2013, An Efficient Unified Method for Thermoelastic Analysis of Functionally Graded Rotating Disks of Variable Thickness, *Mechanics of Advanced Materials and Structures*, 20, 38–46”

should be added to the second sentence of *Solutions by the Complementary Functions Method* section at page 344 as follows:

“It reduces to a particularly simple solution scheme when applied to a given class of problems, e.g. for an annular disk of inner radius r_1 and outer radius r_0 (Tutuncu and Temel, 2013).”
